

Dear Sirs. I respectfully urge you to REJECT NAB's petition 04-160 for the misguided and flawed thinking behind this bill. I am an XM subscriber and find that XM is just ONE of many "tools" that I use in my daily 1 hour commute. To think that this service (XM traffic and weather) should be regulated off the "private" airwaves is absurd. Again, I urge you-vote NO on 04-160.

Sincerely
John Roesch
